

I oppose the low power FM broadcasting having overriding preference over current FM. Specifically, I prefer that the current arrangement that K-LOVE has with FM be maintained as is. K-LOVE is the only source of Christian music and commentary as well as educational material.

Displacement of K-LOVE by LPFM would leave a large unfilled void in the community. This station offers not only the above variety of entertainment but is a favorite of many teens and without K-LOVE these teens would not have a clean , fresh and pure FM choice.

K-LOVE offers the community an alternative to all the other radio venues on the market. Removing our access to K-LOVE would be wrong.
